Rules and Regulations for Traditional Doegor

Annexure III. Applies to every Doegor tournament organised in any part of the Kingdom.

Article I — Playfield

1. The playfield is 35 m long and 6 m wide, excluding spectator space.
2. The two Tseys (pegs) are 30 m apart. The Batsham is marked 4 m from each Tsey towards the other.
3. A Tsey is a wooden peg 2.5 cm in diameter at the top and 15 cm long, embedded in the ground.
4. Flag poles stand at least 2.5 m from each Tsey.

Article II — The Doegor

1. A Doegor must be made of stone; no other material is allowed.
2. Size and weight are left to each player’s choice and capacity to throw.

Article III — Composition of teams

1. Each team is led by a captain, the focal person for the Thrimpon or Barpon (umpire).
2. A team has 9 players, one of them a substitute.
3. Players arrive at the reporting area before roll call without entering the playfield, or 2 points may be deducted.
4. One seeded player is allowed in teams of 8 or fewer; two in teams of 9 or more.
5. Substitution only with the permission of the Thrimpon on duty.

Article IV — Roll call

1. Teams without the minimum number of players at roll call are disqualified; no Lagtheb is allowed.
2. Absence in an emergency is reported in writing to the tournament director at least a day before; the director decides on substitutions, and a seeded player may only replace a seeded player.

Article V — Start of the match

1. Teams enter the field only at the time specified.
2. A coin toss decides which team chooses its Tsey end, which then holds for the whole match.

Article VI — Score keeping

1. Each captain nominates a player, appointed by the Thrimpon as scorer.
2. No other player may interfere; a score keeper records team and individual points.

Article VII — Counting of points

1. A Doegor fully covering the Tsey scores 2 points.
2. A Doegor within one Thogang of the Tsey scores 1 point if no opposing Doegor is as close; otherwise the closest Doegor scores. A 20 cm stick is used to measure, to avoid disputes over hand spans.
3. Where two Doegors from opposing teams are stacked over the Tsey, the one touching the Tsey (the bottom one) scores 2.
4. Where opposing Doegors cover or touch the Tsey equally, the point is nullified.

5. Byep-khaley: where one Doegor covers the Tsey and an opponent’s partly rests on it, the one covering or touching the Tsey scores 2.
6. If a Doegor breaks, its owner chooses which piece counts, and must use that piece for the next three rounds.
7. Points the scorers cannot decide go to the Thrimpon, whose decision is final.

Article VIII — The game

1. Matches are best of three games (Kuu).
2. A game is won by the first team to 25 points.
3. Tournaments may be league or knockout.

Articles IX–XIII — Fixture, conduct, safety and disputes

1. The fixture is drawn in the presence of all captains, who sign an undertaking to follow the players’ code of conduct.
2. Full national dress during play; no smoking, drinking or intoxication; every player signs the code of conduct form.
3. A Doegor is thrown only when all players are outside the flag poles. Distracting a thrower from inside the play area costs 1 point. Players who repeatedly hit others can be banned for life.
4. Disputes beyond the Thrimpon go to the tournament’s dispute settlement committee.
